Abstract: Writing manuscripts doesn't have to be awful.

Keywords: markdown   pandoc   LaTeX

Date: Work in progress.

And that's it. The YAML header is supposed to be complete, you only need to edit it. More goodness will come soon.

1 Critic Markup

These also show the different ways to have *CriticMarkup* show up in the rendered document. For each author, you can define and id in the YAML header. *CriticMarkup* prefixed with this id (no space), as in this example, will be marked differently.

1.1 Feature demo

- addition *tp:*with an author name
- ~~deletion~~ *sa:*~~with an author name~~
- *tp:*~~replacement~~with author name
- this sentence [has an annotation]
- *sa:*this sentence [has a signed annotation]
- highlight only , and a tp signed highlight
- [note only], and a *tp:* [signed note]

2 Figures

By default, figures are rendered at the end of the document, with each figure taking up a whole page. There is a table of figures.

List of Figures

Figure 1: This is a figure.
